

## Aveley Primary School P&C

### *President's Report – 17 October 2022*

#### ***Hollywood Disco***

- Thanks to everyone for their fantastic support to the Hollywood Disco!
- We had some early stress, with the realization that the entertainment had been double booked – but they did deliver (albeit a half service) on the night and have agreed to a \$500 disco for next time.
- Overall feedback has been positive, with a few helpful suggestions provided for next year, thanks to all for contributing to the hot wash discussions.

#### ***Square Machine***

- Thanks to Nyomi and Sharni for purchasing and setting up the Square system
- This device has been instrumental with sales for the Disco and will be fantastic for our future uniform and fundraising stalls!

#### ***Secondhand Uniform Sales***

- Thanks to Sally for continuing the online second hand uniform sales
- We have had some great responses through from the school
- We will continue to offer the second hand uniform sales as an ongoing online stall and will also look to continue the physical stalls at least once a term outside the main office.
- We will include the second hand uniform stall in our upcoming STEM Night.

#### ***Containers for Change***

- This has continued to be a successful program at the school, regular social media posts and messages via connect seem to be working
- We hope that the additional bins around the school are also doing well
- Our next collection is locked in for this Wednesday 19 October.

#### ***Promotion of P&C for new members***

- I will circulate a small questionnaire shortly with the intent to get some personal information on yourselves and a photo that we can use on our upcoming STEM Night to promote the P&C members as 'people with busy lives that still contribute' to break the stereotype that we are all stay at home mums.
- I will be meeting with Susan Taylor to develop a back to back flier that showcases both the P&C and the School Board so our community knows the difference between us. This will be on hand at the STEM Night and will also be included in the Kindy Orientation packs.
- Seeking other ideas to promote the P&C to our community to enlist parents to join our team!
